

BOOST COOLER™

The Water-Methanol Injection Experts.

NEW IMPROVED STAGE 3 DIESEL BOOST COOLER®

The "new" Stage-3 Diesel kits are the most capable and comprehensive water-methanol injection kits available and feature a new Digital Variable Controller with a more compact enclosure and an LCD screen with a user-selectable readout. The controller features true 2 dimensional mapping pre-programmed into it's microprocessor that takes both boost and exhaust gas temps into account in regulating injection. The net effect is smooth power in all engine load states with accurate injection amounts (no combustion quench) resulting in a true turn-on-and-forget system. Over 150lb/ft. torque increases and better fuel economy have been consistently demonstrated. Just as important, over 250°F reductions in exhaust gas temps are common so full power can be utilized for long periods of time such as while towing up a long grade. Designed for "BOTH" towing and power, unlike other power adders, it really gives the best of both worlds - big power and cooler combustion/EGTs.

Additionally, the controller is dash mounted and includes read-outs for boost, exhaust gas temp, and pump output so at a glance, you can see what is going on with your engine and not need additional gauges. This provides for a \$200-\$300 savings if these were to be purchased separately.

Benefits:

- More power - 90+HP
- Cooler EGTs - 200-250°F LOWER
- Better MPG - 5-15% increase

Features:

- LCD screen to display injection %, Boost and EGT's
- Only true 2d mapped system on the market resulting in the most powerful system available.
- Performance mode or Tow mode
- Easily adjustable on the fly
- Auto dimming screen

The Stage-3 Diesel kit includes a new 180psi high volume pump designed for methanol, new LCD Screen Digital Variable Controller with 2 dimensional mapping, specially designed 2-chambered nozzles, and all the necessary parts for an easy installation.

Fitments:

- #49003 91-08 Dodge Cummins
- #50003 99-08 Ford Powerstroke 7.3
- #48003 01-08 GM Duramax
- #47003 Universal Fitments for Diesels
- #50013 04-08 Ford Powerstroke
